Jim Hodges

Anthony Meier Fine Arts presents [Jim Hodges'](#) fourth exhibition at the gallery titled 'silence stillness' with an immersive installation of new work in San Francisco.

"silence stillness" shapes up the culmination of a trilogy of Hodges' recent presentations. The exhibition completes an arc introduced

with "tracing the contours of our days" showcased at the Baldwin Gallery in Aspen in 2017 and followed by "turning pages in the book of love" presented at the Massimo de Carlo Gallery in Milan, 2017-18. In these three exhibitions the artist confronts the universal physical and emotional themes which are able to obscure the constraints of time and can present an array of memories. This gives the very feel of looking through a kaleidoscope. The artist incorporates the whole gallery within just a single gesture of reflectivity in "silence stillness" which will present an installation that assembles two monumental gold-glitter paintings beside a veiled gold arch and a series of rich floral paintings alongside a group of small ceramic sculptures suggesting vessels and human body.

Hodges' aptitude for conjuring emotional resonance with the usage of a range of systems, materials, gestures alongside images is developed further in the present installation that offers a body of multi-layered work evoking resonating themes as identity, time and mortality.

*The show is on view from February 20 through March 23, 2018 at Anthony Meier Fine Arts, 1969 San Francisco, CA 94109.*
